**£10,000
GIVEAWAY**

BIG ideas that would make life in the community better, often need just a little help to get off the ground.

Sometimes, people come up with a simple, but great, plan that would improve life for others who really deserve a boost.

However, the stumbling block is usually a lack of cash, and without the help of a magic wand or a fairy god-mother, the idea withers on the vine.

No longer.

Today, *The Evening Telegraph* launches a great new giveaway.

A fabulous plan to give £10,000 to help great ideas become fantastic realities.

We have teamed up with Combined Insurance to back people who just need a little help to make a difference to people who matter. The people of Peterborough.

Together, working for the community we can 'Make It Happen.'

Any community group, charity, or individual can apply for a share of our pot of gold – as long as it is used to benefit the community.

Perhaps you desperately need equipment for your after-school or playgroup, you know of old folk who need cheering up, or you have a more ambitious charity project in mind.

Perhaps we can help. We will certainly consider it.

Editor Rebecca Stephens said: "Hopefully, the public will take the opportunity to share in this money and help the community."
